

DITYA ILHAMI PUTRA

Fullstack Web Developer

Jakarta, Indonesia (Open to Remote) | +6285788491286 | dityailhami@gmail.com | www.linkedin.com/in/ditya-ilhami-putra-a7a823203 | <https://github.com/DityaIlhami28>

SUMMARY

Fullstack Web Developer with hands-on experience building production-style applications using React, Next.js, Node.js, NestJS, PostgreSQL, and Prisma. Currently working in Technical Support at a SaaS company, applying JavaScript debugging and root-cause analysis skills to resolve application issues. Completed an intensive Full Stack JavaScript program at Hacktiv8 and has since built multiple end-to-end web applications with authentication, REST APIs, and relational databases. Seeking an entry-level or internship remote role to apply and grow these skills on a development team.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript
- Frontend: React.js, Next.js, React Native, HTML5, CSS3
- Backend: Node.js, Express, NestJS, REST API
- Databases: PostgreSQL, MongoDB, Prisma ORM, Sequelize
- Tools & Practices: Git/GitHub, JWT Authentication, Vercel, Postman, Agile/Scrum basics

WORK EXPERIENCE

Technical Support — PT. Mid Solusi Nusantara (Mekari)

Apr 2024 – Jun 2026

Jakarta, Indonesia

- Investigate and resolve application errors by reproducing bugs, reading logs, and querying the database, reducing repeat tickets on recurring issues by 70%.
- Translate technical root causes into clear explanations for non-technical clients, maintaining a customer satisfaction score of 80/100.
- Collaborate with the development team to report bugs with reproducible steps, contributing to 20 product fixes and improvements.
- Document recurring issues and propose workflow improvements to reduce future incident volume.

Warehouse Admin — CV Darma Nusantara

Aug 2022 – Oct 2023

Palangkaraya, Indonesia

- Ensured compliance with industry regulations for goods storage and documentation.
- Prepared and presented recurring operational reports to management to support decision-making.

PROJECTS

Imbursare

2026

Tech: NestJS, Next.js, Prisma, PostgreSQL, shadcn/ui, Recharts, JWT Auth, Groq AI | <https://github.com/DityaIlhami28/Imbursare>

- Built a full-stack reimbursement system app with JWT authentication, REST API, and data visualization dashboards.
- Designed relational database schema and seeded data using Prisma ORM.

Blood Buddy

2024

Tech: React Native, MongoDB, NestJS | <https://github.com/orgs/Blood-Buddy/repositories>

- Built a mobile-friendly platform connecting blood donors with hospital donation requests.

One Piece TCG Price Tracker

2026

Tech: NestJS, Next.js, Prisma, PostgreSQL, shadcn/ui, Firecrawl AI

- Built a fullstack price tracker in Tokopedia for One Piece TCG
